

THE ROAD TO
COP21

THE INTERNATIONAL CHAMBER OF COMMERCE

ICC is the world's largest business organization with a network of over 6 million members in more than 130 countries. We work to promote international trade, responsible business conduct and a global approach to regulation through a unique mix of advocacy and standard setting activities—together with market-leading dispute resolution services. Our members include many of the world's largest companies, SMEs, business associations and local chambers of commerce.

ICC is the global business focal point to the UNFCCC.

PROMOTING SUSTAINABLE BUSINESS FOR MORE THAN 40 YEARS

**We are the
world business
organization.**

ICC CARBON PRICING PRINCIPLES

THE ROAD TO
COP21

According to the World Bank, almost **40 countries** and more than **20 cities, states and provinces** already use carbon pricing mechanisms or are planning to implement them. The world's emissions trading schemes are valued at about **US\$30 billion**, with China now housing the world's second largest carbon market, covering the equivalent of **1,115 million tons** of carbon dioxide emissions.

TO MAXIMIZE THE EFFECTIVENESS OF CARBON PRICING INSTRUMENTS, ICC RECOMMENDS THAT POLICYMAKERS SHOULD:

- 1** Create reliable and predictable frameworks for cost-effective energy and climate policies
- 2** Promote consistency between climate and energy policies
- 3** Prevent carbon leakage
- 4** Create clear and robust transparency frameworks
- 5** Maintain accessibility to and affordability of energy
- 6** Promote international linking of carbon pricing instruments
- 7** Recognize there is no "one-size-fits-all" instrument
- 8** Re-invest carbon pricing revenues in climate mitigation efforts
